Subject: UC Sant Cruz Temperature criteria for Central Valley salmonids contract Draft Report

Steering Committee members:

Just a heads up that Ben Martin is due to send us the draft project report this week. The final project report is due to me on March 31, 2019. I will send the draft report to you as soon as I receive it from Ben. Your review and comment is very important. If we have your reviews by the end of February, Ben should have enough time to consider the comments and finalize the report by the end of March. I would also like to schedule a conference call with the committee near the end of February to discuss any major concerns with the report. More on that later.

Please let me know, as soon as you can, if you are unable to provide a review. I may need to find replacement reviewers. Again, a robust review by the steering committee is critical to this process.

I appreciate what the committee has done up to now and thank you for your continued support,
walt
